

**Sometimes beauty needs a helping hand to stay beautiful.**

Therefore the Louis C. Jacob will have to undertake some reconstruction and renovation work in a portion of the building, in order to continue to live up to its role as one of Hamburg's leading luxury hotels. This work forces us to close the main building with guest rooms, restaurant and bar from 8 January to 15 April.

Our garden side will thereby get the role of a lifetime. This generous area in the Holthusen building with its integrated new building will continue to offer all the amenities that you expect from the Louis C. Jacob. Breakfast will be served in the comfortable rooms of our Kleines Jacob wine bar. Our two-storey ballroom suite overlooking the inner garden will serve as bar and lounge.

Your visit to the Elbphilharmonie, including pre-show dinner in our CARLS at the Elbphilharmonie and the unique after-show wine and cheese party on the MV Jacob river launch, will be a grand experience despite the altered circumstances.

You will not be disturbed by construction noise, since the different buildings are separated by the Elbchaussee.

For some things, there is never the perfect time, but they still have to be done.
